- Regular reporting
- Transparency

Our knowledge, skills, ability and experience has been developed over two decades and is reflected in the many clients who have chosen and continue to choose Int Tec Solutions.

In business for over 20 years, Int Tec Solutions offer a wide range of ICT services that enable companies to focus on their core business which is servicing their clients and generating profit.

Our Commitment

We are committed to our client's goals and business focus across all industries, and our hallmark projects can introduce our competencies better than just words.

Some of the industries that we work across are as follows:

- Healthcare
- Banking and Finance
- Manufacturing
- Corporate
- Government
- Education

Int Tec Solutions consultants and technicians have the skills, methods and tools to help our clients in adapting to the market demand and building up revenue through digital transformation.

Your organisation is precious. Only choose the best.

As a one-stop IT and communications partner, Int Tec Solutions can give you peace of mind that your hardware, software, hosting, support, development and specialised needs can all be met by one company, available 24-7. If you're passionate about laying the technological foundations for your organisation's success, talk to us about your support requirements today.

We're in this for the long-haul, and we don't do cookie-cutter solutions.

We believe that no two clients are the same. We seek to understand issues from our clients' points of view and provide long-term solutions. We know how important it is to keep you in the loop, so we'll communicate any progress, completion or follow-up actions, and we'll make sure that you're satisfied.

Here are just some of the ways we can support your organisation

- ✓ Regulate your IT costs
- ✓ Safeguard your information
- ✓ Keeping your ICT Service local
